Incline Village, Nevada

Mark your calendars for the 5th Biennial Conference to learn about the progress made in understanding the Lake Tahoe Basin environment. This two-day event (March 16–17, 2010) will be held in Incline Village, Nevada.

The purpose of this two-day conference is to provide an open forum in which individuals involved in the science and management of the Basin can learn about and discuss the latest relevant science and information. **A “Call for Abstracts” will be distributed on October 15, 2009.** Interested parties will have the opportunity to provide either oral or poster presentations.
